## STATE OF NEW HAMPSHIRE.

(L. s.) To the Inhabitants of the Town of Salisbury in the County of Merrimack in said State, qualified to vote in Town Affairs.

You are hereby notified to meet at the town house in said Salisbury on Tuesday, the ninth day of March next, at ten of the clock in the forenoon, to act upon the following subjects:

1 To choose all necessary town officers for the year ensuing.

2 To raise such sums of money as may be necessary to defray town charges for the ensuing year, and make appropriation for the same.

3 To raise such sums as may be necessary for repairing highways and bridges.

4 To raise such sums as may be necessary for repairing its state road.

5 To raise such sums as may be necessary for state aid construction.

6 To raise such sums as may be necessary for celebration of Old Home Day.

7 To raise such sums as may be necessary for improvement of its cemeteries.

8 To transact any other business that will legally come before said meeting.

9 To hear reports of agents, auditors, or officers heretofore chosen and pass any vote relating thereto.

Given under our hands and seal, eighteenth day of February, in the year of our Lord nineteen hundred and twenty.

GEORGE B. SANBORN,  
CLARENCE J. HOLMES,  
THOMAS R. LITTLE,  
Selectmen of Salisbury.

A true copy of Warrant—Attest:

GEORGE B. SANBORN,  
CLARENCE J. HOLMES,  
THOMAS R. LITTLE,  
Selectmen of Salisbury.

Budget in six point.

L. N. SAWYER, Treasurer,

## AUDITOR'S REPORT.

---

Salisbury, N. H., Feb., 14, 1920.

This certifies that I have examined the accounts of the Selectmen and Treasurer of the Town of Salisbury, together with the reports of the Road Agents, School Board, Library Trustees, and other officers of the Town and School District, for the financial year ending January 31st, 1920, and find them correctly cast and properly vouched.

BURON W. SANBORN, Auditor.

For the Town of Salisbury, N. H.

## REPORT OF THE SCHOOL BOARD.

---

The work of the year has, as a whole, been very satisfactory considering the difficulties we have had in securing teachers and in getting needed supplies.

We have been more fortunate than many other towns in that we have been able to keep all of our schools open while the shortage of teachers has forced many towns to close some of their schools.

A few changes have been made in text-books used, at the suggestion of our superintendent, Mr. Sumner, who has given us many valuable suggestions and assisted in every way possible so as to bring our schools up to compare favorably with the schools in larger places.

We are fortunate in having a force of teachers who have been loyal and faithful in their work and have co-operated to serve the best interests of the pupils.

It has been necessary to pay our teachers larger salaries than ever before, but we believe it has been money well expended as most of them are experienced and well qualified.

Something has been done in the way of repairs in most of the school rooms and they have been made to look more cheerful and sanitary. Much remains to be done, but if a little were accomplished each year they would soon be in first class shape.

We have tried to solve the problem which relates to the physical development of the boys and girls in our schools as regards playgrounds and equipment. If you give the boys and girls suitable forms of recreation outside the classroom you will very soon notice an improvement in their work in the classroom, they are made to think and act quicker and will develop a poise that they will carry through life.

Athletic supplies to the value of twelve dollars have been given by friends and it is hoped that a small appropriation will be made so that more can be added.

We ask your support and co-operation in making our schools institutions that will develop the best that there is in our school children and fit them for real citizenship.

With the aid which the state is giving us and the assistance which is available through the superintendent even the isolated country schools will soon compare favorably with any schools in the state.

The school board, recommends that the district raise and appropriate a tax of \$5.00 on each \$1,000 valuation for the support of the public schools, for the purchase of text books, scholars' supplies, flags and appurtenances. Also the sum of \$250.00 for high school and academy tuition.

Also a tax of \$2.00 for each child residing in the district who was enrolled in the public school in the last preceeding school year, estimated at \$190.00.

Respectfully submitted,

GEORGE B. ADAMS,  
H. F. TWOMBLY,

School Board of Salisbury.

## REPORT OF SUPERINTENDENT OF SCHOOLS.

---

February 6, 1920.

To the School Board and Citizens:

If you have undertaken this first experiment with school supervision with the expectation that it would show far reaching results during the first few weeks, I fear that you must feel somewhat disappointed. The last legislature, when it enacted into law the bill providing for such radical changes in our system of education, placed a heavy burden upon every school officer.

The State Board has been obliged to make many new rules for the conduct of so large an enterprise and has been seeking a great amount of information about school conditions needed for the intelligent discharge of their heavy responsibilities.

School Boards have grappled with changed accounting systems, new and more frequent reports to the state department of education, the application of the new laws to their financial and educational problems.

To the superintendent has come many details inseparably connected with readjustment to the new system. In this supervisory union there are three towns new to him—one which has never had a superintendent before; one which has had none in recent years; and one transferred from the Pittsfield Union. There are twenty teachers outside of Penacook, and only one of these has ever worked under me before.

I keenly regret that during this first half year it has not been possible for me to be in the schoolroom more and to come into closer touch with parents, teachers and children. If I can hope that there have been some results from this first six months' work they will be shown not this year but in the years that are to come. Now that the beginning has been made I trust that during the remainder of this year and more especially during the com-

ing year, my time may be devoted less to machinery and more to the real work of the superintendent as supervisor of schools.

On taking account of stock I found that the supply of textbooks was low. The School Board were very ready to provide money to meet any reasonable demands and I have purchased a considerable amount of new material, especially in reading and history. The teachers I am sure, have appreciated these additions. If they are impatient of delay in supplying their further needs I can only say that I have tried to meet the School Board's liberality with great care in furnishing where the need is greatest. It is very easy to spend money and increase your equipment—it takes time and pains to place every dollar "where it will do the most good."

It is impossible in these days for School Boards and Superintendents to prevent great increases in school expenditures, but I would like to be able to convince the citizens of Salisbury that every added dollar has brought an adequate return.

Salisbury has felt this year the shortage of teachers which is nation-wide. There is every indication that next year this difficulty will be increased rather than lessened. The only hope of securing good teachers for our schools next year is to decide early what we can afford to pay—decide to pay more than we think we can afford—and then to attempt to hire teachers for next year at once. It is useless to talk about the salaries paid fifty years ago or yesterday. The teachers of the entire country feel that they have long been underpaid. They are leaving the profession by hundreds and thousands. Nothing but greatly increased salaries will stem the tide. Rural schools were affected first and they will continue to be hit hardest. If every school in Salisbury has a satisfactory teacher next year it will be brought about only because everyone concerned—taxpayers, voters, the homes where teachers board, the School Board and the superintendent, have done their very best.

The State Board is directing the improvment of the health of the children along three lines. First, more hygienic buildings; second, exercises for physical improvment; third, physical examination of children at least once a year.

During the last summer much improvement was made on the interior of most of the schoolrooms. During the next few years it will be necessary to improve to a large degree the toilets and the lighting. A set of exercises for school children is being prepared and will soon be in the hands of the teachers. The Salisbury School Board has yet to appoint a school physician or school nurse who will examine the children before the end of the present year.

It is easy in times like the present to become discouraged, to discover currents in this heterogeneous mass which makes up the citizenship of our country which may spell disaster in the immediate future. But you and I are not ready to admit that the United States of America cannot find the wisdom, and the strength, and the courage, to cope successfully with its tremendous and dangerous problems. And if in the providence of God, through fearless and intelligent leadership we shall weather the storm for the next few years, it will still be true, as it always has been, that our more distant future, twenty—forty—sixty years from now, is in the hands of the homes, and the churches, and the schools of today; and so long as anybody anywhere believes that there is anything worth doing in this world of ours, it will be worth while to give of our time, our energy, and our money—to the point of sacrifice if necessary—for the training of the generation which will take our place in a few years, will make its contribution to the common good, and will pass on to future generations what they have received from the past through us.

It has been a relief to me to know that the School Board realized that this first year of organization has been a somewhat difficult one for me as it has been for the Board. Allow me to express my appreciation of the helpful attitude of the teachers and of those citizens with whom I have come in contact.

Respectfully submitted,

GEORGE W. SUMNER.

## ROLL OF HONOR.

	CHARLES A. GREEN,	
	School Treasurer.	

---

Salisbury, N. H., February 2, 1920.

This certifies that I have examined the accounts of Charles A. Green, School Treasurer, and find them correctly cast and properly vouched.

BURON W. SANBORN,  
Auditor.

## HEALTH REPORT.

---

Salisbury, Jan. 31, 1920.

There was but one call for the Health Officer to act during the year. In May I was called upon to visit Mr. Minard's family. I found it necessary to call a physician to diagnose the case, who pronounced it scarletina. Quarantine was immediately established and continued for thirty days until all were recovered, no case proving fatal. The house was duly cleaned and there was no further spread of the disease.

Respectfully submitted,

CHARLES A. GREEN,

Health Officer.

**STATISTICAL TABLE FOR THE YEAR ENDING  
JUNE, 1919.**

Name of School	Term	Name of Teacher	Number Weeks of School	Wages per Month	Number of Pupils	Average Attendance	Number of Visitors
